

Open your mind, open new doors

wMot

CONTROL OF INTELLIGENT LOCKS

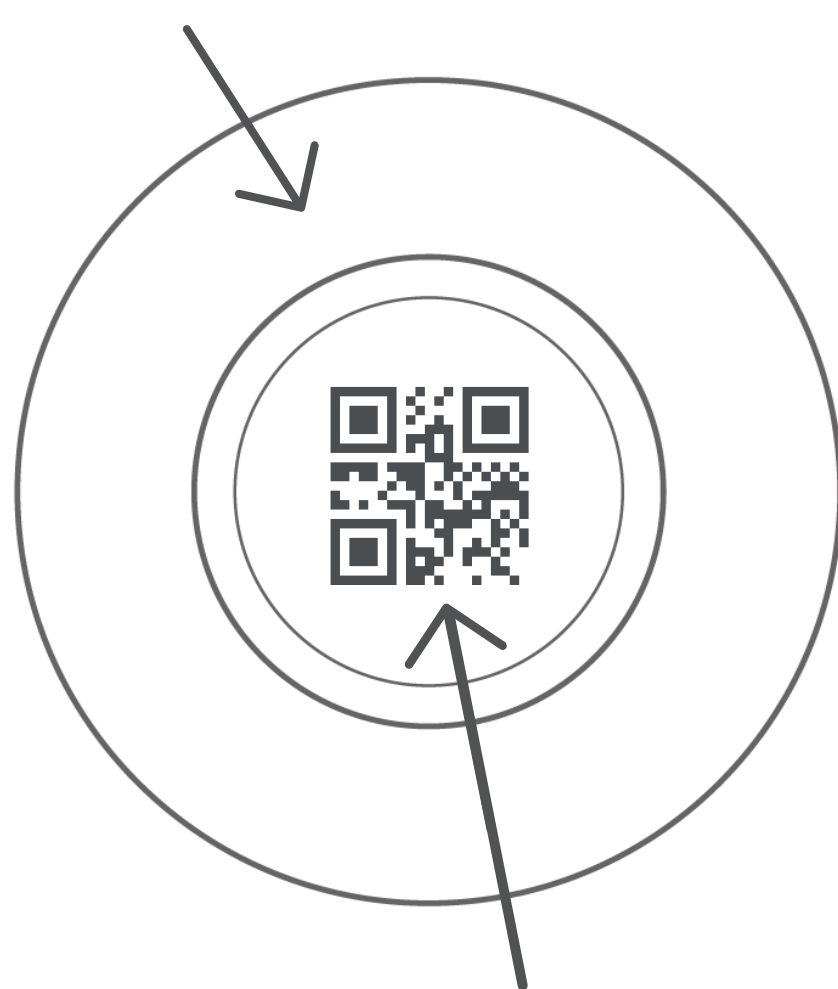

Low-power Bluetooth device that allows you to activate or deactivate 1 to 2 relay

The wMot can be controlled any type of electronic lock on the market such as of the access doors to buildings, garage doors, elevators, hotels, etc. from the Watchman Door App.

At Watchman Door we are specialists in access control and with our device wMot we can develop customized solutions for different lines of business such a:

- ✓ Retail furniture (both showcases and furniture with drawers or doors).
- ✓ Local Access electronic bollards.
- ✓ Rental control by time such as paddle tennis courts, rooms and meeting rooms.
- ✓ Lockers
- ✓ Access control for turning mechanisms
- ✓ Personalized package opening
- ✓ And any other Access control that you need to implement

1 or 2 relay control
